

JISC's role in the changing HE landscape

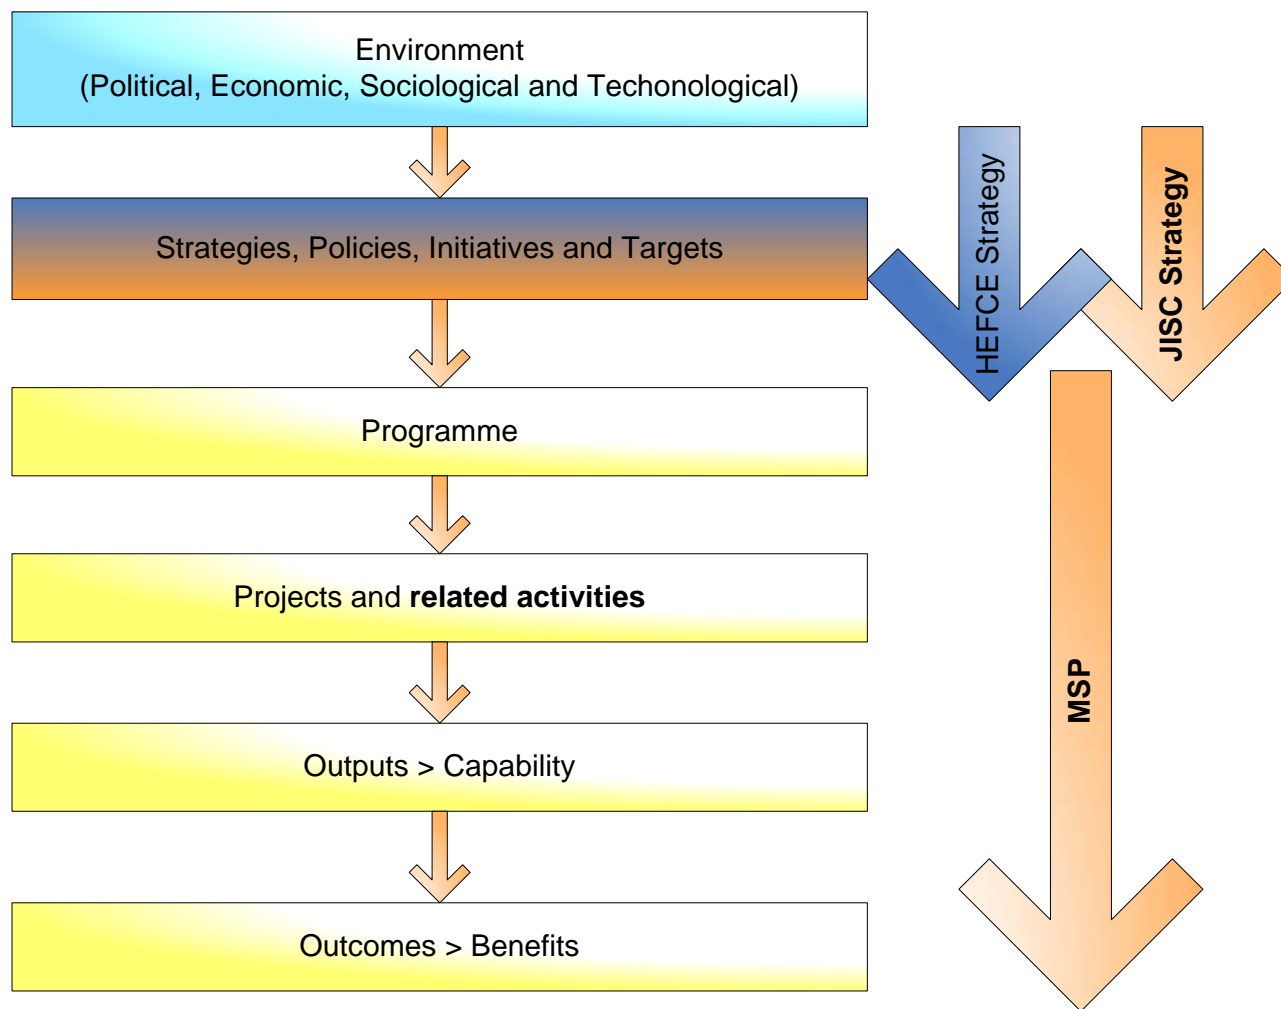

Next Generation Environments Conference

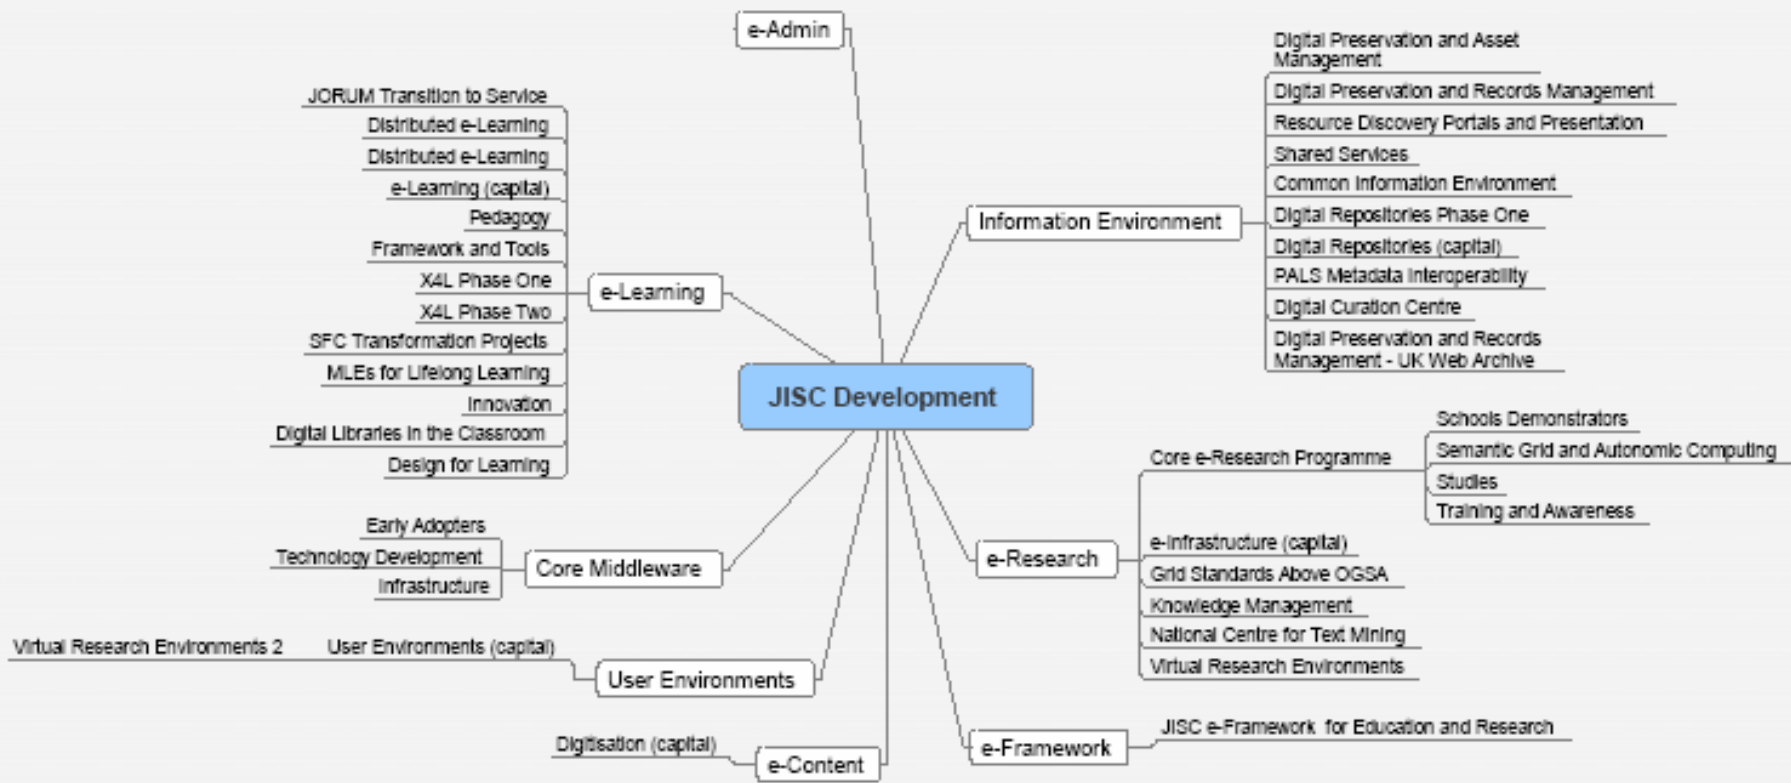

Sarah Porter
Head of Development
27 April 2007

Outcomes of Development Programmes: supporting change in HE

- 1. Enhanced capacity, knowledge and skills to enable positive and informed change in the sector (through piloting new technologies and approaches)
- 2. Guidance to the sector on 'best practice' models for using technology that can be used at departmental, institutional, regional or national levels
- 3. Strategic leadership to the sector and other bodies in specialist areas and to influence national and international agendas
- 4. Knowledge and experience as a basis for future funding decisions for the JISC and its sub-committees
- 5. New or enhanced services, infrastructure, standards or applications that may be used at departmental, institutional, regional or national levels

Programme Management Environment

- Modular approaches to software development and Service-oriented approaches (e-Framework)
- Community
 - Open content, open access
 - Informal publishing and networking
 - Community-focused development models
- Focus on the individual (learner, teacher, researcher) as well as the institution

Title: Landing

Planet Avalon

shield 1

Shield gate encountered.
Drag the numbers from the green pads to the pink pads to try to open the shield gate.

JISC Development Value Life Cycle

The Programme Vision

To create opportunities to transform practice by developing technologies and processes that support the user experience in improved and innovative ways

What will the Programme do?

Bring together a community that will investigate and collaborate around the strands of the programme

Community characteristics:

- JISC Involvement
- Real issues
- Diversity

Two Strands: Personal e-Administration

3 projects funded aimed at different aspects of personal administration loads:

- Flourish
- Streamline
- TicTOCs

Two Strands: Next Generation Technology and Practice

Technologies that have been characterised by the term Web 2.0 and social software

- Funding available April 2006 – March 2009
- JISC will fund projects and activities that help to accelerate the pace of change in:
 - e-infrastructure and virtual research environments
 - learning and teaching
 - repositories and preservation
 - users and innovation
 - digitisation and e-books
- Call for proposals for the third phase of funding released today!
