

Output type	Examples	Guidance/notes
case study	<ul style="list-style-type: none"> · curriculum case study · institutional case study 	<ul style="list-style-type: none"> · follow case study guidelines* provided
process	<ul style="list-style-type: none"> · method · workflow · process model · process guide · process map 	<ul style="list-style-type: none"> · Include contextualising note: how process was carried out, how it was helpful, what potential efficiencies identified · Include note or tag of modelling process/ software used, if any
findings	<ul style="list-style-type: none"> · lessons learned · key messages · themes · issues 	<ul style="list-style-type: none"> · findings will generally be described at programme level i.e. after involvement of projects in reflection and synthesis, and in contextualising pages rather than assets
evidence	<ul style="list-style-type: none"> · video clips · quotes · data 	<ul style="list-style-type: none"> · notes on technical formats* · notes on tagging for third-party hosted files* · notes on anonymity and ethics* · more helpful if linked from specific findings
example	<ul style="list-style-type: none"> · sample documentation · system outputs · learning materials · learning outcomes 	<ul style="list-style-type: none"> · tag with/link to specific parts of the curriculum lifecycle
conceptual tool	<ul style="list-style-type: none"> · method · toolkit · protocol 	<ul style="list-style-type: none"> · Include contextualising note: how, when, where and by whom is this model intended to be useful?
software tool	<ul style="list-style-type: none"> · 	<ul style="list-style-type: none"> · Include contextualising note: how, when, where and to whom is this software useful? · Include note of technical platform and system requirements, if relevant.
report	<ul style="list-style-type: none"> · evaluation · interim · final · research 	<ul style="list-style-type: none"> · Follow reporting guidelines and templates where relevant · Share in EvidenceNet · Share on Circle
learning	<ul style="list-style-type: none"> · design · pattern · plan · resource · material · OER · RLO 	<ul style="list-style-type: none"> · Share in Cloudworks
guide	<ul style="list-style-type: none"> · staff development resource · how-to guide · checklist 	<ul style="list-style-type: none"> · Aim for collaborative development with other projects to reduce duplication
presentation	<ul style="list-style-type: none"> · poster · slideshow · recording · interview 	<ul style="list-style-type: none"> · Notes on tagging for third-party hosted files* · Share any dissemination outputs and events on Circle
